Summary

Software Developer focused on frontend for web and mobile (Vue.js, Nuxt.js, React, Next.js, React Native, Capacitor) with 4+ years of production experience. Growing toward full-stack with Python, FastAPI, Flask and ML model integration. Based in Finland, studying ICT.

Experience

Software Developer

LLC Duotek

02/2022 - 11/2025

- Built and shipped 10+ production projects using Vue.js 2 and Nuxt.js 2.
- Migrated legacy codebases to Vue.js 3 and Nuxt.js3, establishing development standards.
- Delivered high-traffic interfaces with payment flows, authentication, chat, and multilingual support.
- Developed a custom Nuxt.js 3 authentication module (1.5K+ installs on npm).
- Built and shipped several mobile applications for Android and iOS.
- Implemented the first in-house audio streaming player for Vue.js 2/3 projects.
- Authored onboarding documentation and mentored new hires.

Web Developer

Société Générale

09/2021 - 02/2022

- Migrated legacy jQuery-based internal tooling to Vue.js 2.
- Co-built an internal operations platform with a Python backend developer using clients' feedback.
- Streamlined administrative workflows by designing accessible interfaces tailored to employee needs.
- Took ownership of frontend development from implementation to delivery, ensuring maintainability.

Content Writer & Editor

Medialeaks

02/2018 - 07/2021

- Produced 2000+ news pieces, entertainment stories, short notes, long-reads, reports, and interviews, generating ~200 000 weekly reads and contributing to 10M+ annual audience engagement.
 - Managed a team of 9 contributing writers and an assistant, overseeing planning, editing, and publishing.
 - Increased organic website traffic by 87% in 6 months via SEO-oriented strategy.
 - Mentored junior editors and trained new contributors to maintain quality and consistency.
-
